

LIFE 
OUTREACH INTERNATIONAL
JAMES ROBISON

Dear Preston,

It's such an honor to have friends like you stand with us to help give hope, healing and life to hurting people. Thank you for helping us drill clean water wells in poverty-stricken nations.

Most of us have never lived without clean water. We don't know the pain of watching someone we love die from a water-related illness. We live in countries where clean water is plentiful, but in places like Nicaragua, this isn't the case. If clean water is available at all, villagers must walk miles to retrieve it. Thankfully, we can help. This year, we can drill 100 wells around the world. Then, thanks to a matching grant, another 100 wells will be drilled. That's a total of 200 wells that will service up to 200,000 people.

Each time we begin a new effort, I get excited to know that God will use us to show compassion to the needy (Psalm 72:13-14). Children will be fed. Homes will be built, and the lost will hear the life-changing message of Jesus. Praise God!

Thank you again for helping drill clean water wells. Your continued support and prayers are key to our success.

In His service,

James Robison
